Framework of Business Operations

Japan Post Insurance aims to provide protection that is truly satisfying to customers through an extensive nationwide network comprising post offices and the Company’s branches, which together serve as bases for providing our products, various procedures and services.

Bases for providing our products and services

We are promoting the life insurance business with agencies (our business partners Japan Post Co., Ltd. (post offices) and contracted post offices) and the directly-managed offices (our branches) as our sales channels.

Agency sales channel

Japan Post Co., Ltd. (“Japan Post Co.”) solicits our insurance products through its post offices which can be found in every corner of the country as bases of operations. Post offices provide simple and easy-to-understand products (with easy procedures and smaller coverage amounts) and services mainly to households and the individuals market, taking advantage of their nationwide network.

We have placed organizations (Agency Relations Divisions) for agency support at 76 of the 82 branches (as of March 31, 2018) and offer support for sales promotion, as well as training and administration support. We also take advantage of our strengths while working as one with Japan Post Co. to promote the development of products that meet customers’ needs, the development of new markets and channels, and the sophistication of sales processes. As of March 31, 2018, there were 20,047 post offices undertaking life insurance solicitations.

Contracted post offices (postal counter service consignees) provide simple and easy-to-understand products and services in the same manner as the post office channel. As of March 31, 2018, there were 580 contracted post offices that had concluded life insurance solicitation consignment contracts with Japan Post Insurance.

Note: In addition, some contracted post offices conduct work to refer customers to post offices.

Directly-managed wholesale channel

Whole Sales Divisions are placed at 76 of the 82 branches (as of March 31, 2018) of the Company, and we have also established the Whole Sales Department at the head office to provide our products and services primarily to the corporate and worksite market, as well as to handle other life insurance companies’ products for corporate customers.

Bases for various procedures

For policies with Japan Post Insurance, we provide services for the collection of insurance premiums, the payment of insurance benefits and various other procedures at post offices throughout Japan.

In addition, following privatization, we have been commissioned with the management of Postal Life Insurance Policies by the Management Organization, which succeeded the Postal Life Insurance Policies from Japan Post. By consigning some of the commissioned tasks from the Management Organization to Japan Post Co., such as the collection of insurance premiums and the payment of insurance benefits, we provide services at post offices just as we did before privatization.
